2 The Bonfire Night Story

Long ago, in 1605, a group of men made a secret plan. It was called the Gunpowder Plot. They hid barrels of gunpowder in a cellar under the Houses of Parliament in London. They wanted to blow up Parliament and King James I. Late on the night of 4th November, a man called Guy Fawkes was caught guarding the gunpowder. The King was safe! People lit bonfires to celebrate. That is why we have bonfires and fireworks on 5th November.

Remember, remember
the fifth of November!

3. True.
4. False: he was caught guarding the gunpowder.
5. True.
6. True.

5 Think It Through

a) **B, a moon.** The pattern is star, star, moon, again and again.

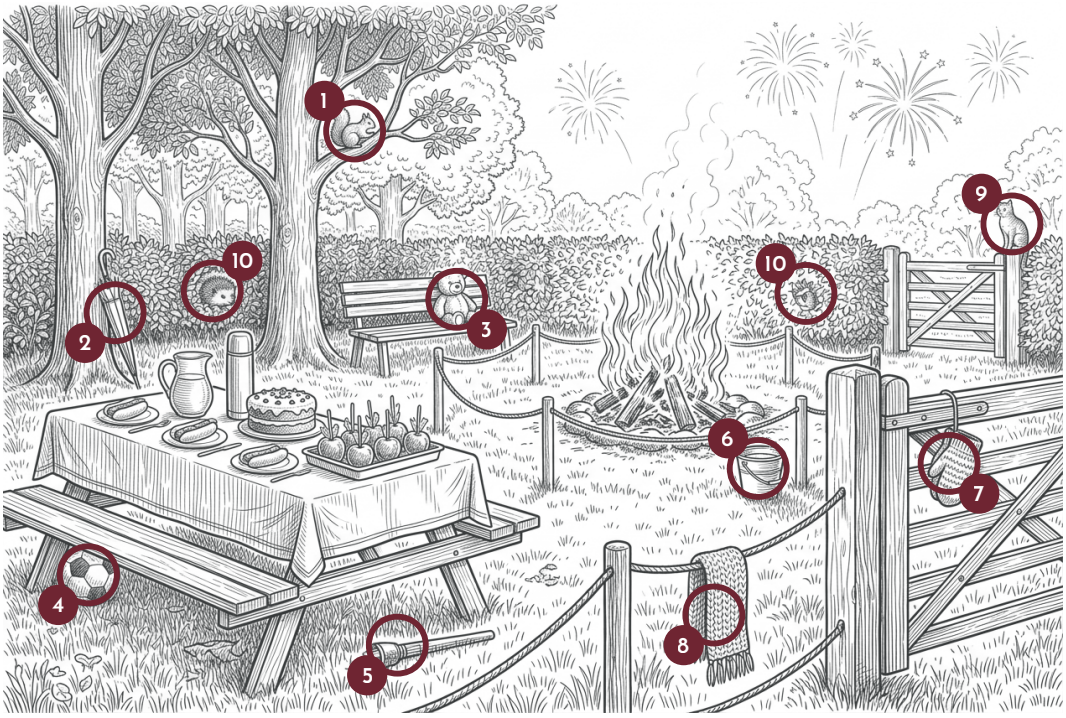

b) **B, 6 sparks.** Each firework has one more spark than the one before: 3, 4, 5, so 6.

c) **D.** It has 6 points; all the others have 5.

How to help

Read the story together first; the True or False answers are all in it. For the word search, sound out each word, then look for its first letter. For the patterns, say them out loud ("star, star, moon ..."). Counting sparks and points with a finger helps. For I Spy, if they get stuck, give a gentle clue such as "look near the gate".
