Roll and Draw

Halloween Pumpkin

How to play

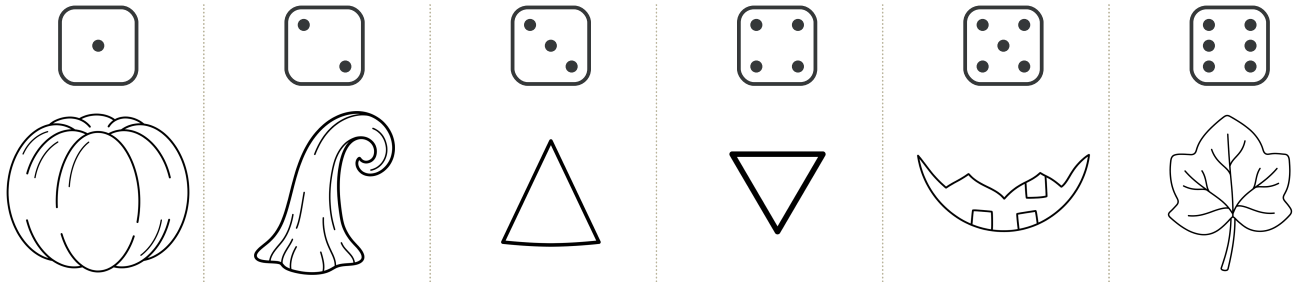

1. Roll the die. Draw the part that matches your number.
2. Start with the pumpkin: you need a 1 first, so keep rolling until you get one.
3. Some parts are needed more than once: the (x) number shows how many. Each time you roll that number, add one more.
4. If you already have all of that part, roll again.
5. First to finish the whole picture wins, or play on your own!

You need: a die, a pencil and some crayons to colour your picture at the end.
